

METAL CLAD COLORS & FINISHES

Painted | Anodized | Cyprium

SUPERIOR ALUMINUM CLADDING

Intricately Detailed and Seriously Durable

Loewen uses pre-finished extruded aluminum cladding for our painted and anodized finishes to protect window and door exteriors and eliminate the need for painting. Our thick extruded aluminum cladding retains its shape, resists denting and lasts longer than roll-formed aluminum.

In addition, it's superior tactile rigidity adds to the overall strength of each window or door, minimizing fading and cracking caused by temperature-induced expansion and contraction.

The broad variation in Loewen sizes, shapes and designs and the demanding environmental conditions that our product encounters require an alloy that has the ability to:

- Withstand serious impact without sustaining damage
- Allow intricate extrusion detailing
- Provide the malleability necessary to clad many sizes and shapes
- Deliver unequaled environmental durability
- Provide a stable substrate that enhances colorfast paint performance

Warranty

Loewen provides one of the strongest warranties in the industry, because it is backed by years of experience, high quality products, and a dedicated network of qualified technical service professionals.

STANDARD PALETTE

Painted Clad Finishes (AAMA 2605 / 70% Kynar)

Loewen's finish palette provides the perfect finishing touch for fulfilling your vision, while also providing industry leading quality and performance. Loewen's paint formula includes 70% Kynar 500 PVDF (polyvinylidene fluoride) resin, which offers the greatest resistance to weathering, fading and chalking. This ensures a beautiful finish that will last with minimal maintenance. With excellent appearance and durability, these paints meet the specifications of the American Architectural Manufacturers Association (AAMA) 2605.

Anodized Finishes (AAMA 611)

For a durable alternative to paints and organic coatings, our Anodized Finishes offer a rich matte look that reduces sunlight glare and allows the aluminum to maintain its metallic appearance. In addition to the aesthetically desirable etching, our Anodized Finishing also increases resistance to abrasion and corrosion on aluminum. This aluminum is 100% recyclable and uses a waterbased process with no volatile organic compounds for eco-friendliness.

COPPER & BRONZE CLADDING

The Loewen Cyprium Collection

The Cyprium Collection features copper and bronze clad windows and doors that are unique in design and artisanal in detail. The hand-wrought living surfaces develop distinctive patinas that adopt and define the individual aesthetic character of the homes to which they belong. Patinas are treasured as a mark of lasting value, as each patina is ever changing.

Cyprium Finishes

CUSTOM PALETTE

Enhancing our Standard Palette, our Custom Palette includes a few extra anodized finishes and the option to configure your own custom paint colors. The integral cross matching system and color approval process ensures that you get the exact custom paint color you want every time.
