CONTEMPORARY SOLUTIONS

Imagine something unique and original.

We are here to help you create your story, just as you envisioned it. Anything is possible with our sleek and intelligently designed products. With minimal profiles, larger views, and custom capabilities, Loewen will take your contemporary projects to the next level.

Our extensive product range incorporates authentic materials and we never compromise our strict performance standards. We believe that contemporary design brings with it a richness and nobility that is entirely new and entirely timeless.

REFINED FORM

Loewen’s Picture/Direct Set window is the defintion of sleek design.

These windows maximize views with minimal solid wood framework, resulting in a high-performing product with an unmatched aesthetic. Offered in a variety of shapes and sizes, they are the perfect complement to any style of architecture.

FEATURES

Minimal design is free from interior glazing stops for a clean aesthetic

Our design offers increased energy efficiency and an expansive viewing area with larger glass

Exterior-glazed for easier on-site installation of oversized glass units

Designed with “rain screen” principles which allow for water deflection

MINIMAL PROFILE

Our most contemporary cladding to date.

Our narrow 7/8" frame cladding is our narrowest profile frame. The reveal from the sash to the outer edge is only 1/2 inch on awning and casements. This minimal design incorporates the performance that Loewen makes paramount to all our designs in a modern aesthetic.

EXPANSIVE VISTAS

Advanced European engineering meets modernized design with one of our most recent innovations.

Our Timber Curtain Wall system offers new design possibilities for the architectural community. These impressive contemporary vistas offer slim sight lines and large glass, all without sacrificing performance. The expansive views of our Timber Curtain Wall ultimately work to expand the home, let in more daylight, and enable customers to feel at one with nature.

FEATURES

Structurally engineered wood timbers are available in Coastal Douglas Fir (standard) as well as optional species, including Honduran Mahogany and White Oak

In addition to aluminum cladding, exterior cladding is available in wood or Cyprium

Pre-assembly at our facility (including fasteners and gaskets) ensures a smoother jobsite installation

The water management system, designed to drain water vertically, eliminates unsightly drainage holes on horizontal faces

INDOOR/OUTDOOR LIVING

Expansive doors blur the line between indoor and outdoor environments.

LiftSlide

High structural integrity and threshold options allow LiftSlide doors to be located in areas of high exposure where homeowners desire expansive views - mountain, hillside, coastline, or lakefront vistas. The fiberglass frame option provides superior thermal performance, strength, and durability. LiftSlide doors are available in straight, curved radius, corner, and angled configurations in both jamb and pocketing systems. Custom configurations are available.

Bifold

BiFold Doors are made up of multiple door panels that fold open. Loewen BiFold Doors are available in configurations of up to 16 panels, which allows for openings of up to 52 feet wide. Folding to the outside so as not to disturb interior furnishings, BiFold Doors put outdoor spaces in a new perspective.

MultiSlide

With easy, smooth and incredibly quiet operation on stainless steel tracks, these high performing doors operate just as beautifully as they look. With 2¼” panels, these sleek doors are the perfect addition to a contemporary project.

ELEGANT STYLE & DESIGN

The metal look with the performance of natural materials.

Simulated Divided Lite (SDL) bars add a distinctive design feature to full-size panes of glass. Wood or metal bars securely bonded to the outer surfaces of the sealed glass unit simulate the appearance of traditional true divided lites or steel windows.

EFFORTLESS PERFORMANCE

Our narrow stile doors fit perfectly with your contemporary design.

Available in out-swing and in-swing versions with standard or narrow rails and stiles. Standard doors have a top rail and stiles with face widths of 4⁵/₈" and a bottom rail that is 7⁷/₈". Other design options include mid-rail and flat or raised panel doors, fixed or venting sidelites & transoms, and barrier-free Sills (ADA compliant).

SOLID POINT OF CONTACT

The component that needs to feel right, not just look right.

We've done the contemporary aesthetic right while using genuine materials. All of our hardware is constructed from solid metal; bronze, brass, steel or zinc. We provide strategic options, because selecting a style and finish that reflects your unique tastes is a critical part of creating the right look.
