

FEATURES AND BENEFITS

LIFTSIDE DOORS

Loewen

OVERVIEW

Effortless Motion, Exceptional Performance

The striking Loewen LiftSlide door provides a panoramic view while extending the living space of the home. Its expansive glass panels roll smoothly and easily allowing for seamless operation on “barely there” stainless steel tracks. Homeowners won’t believe they’re moving up to a 1000lbs of glass with their slightest touch, it’s truly that effortless.

OVERVIEW OF OUR OFFERING

Stacking, Bi-Parting, and Pocketing Doors

Straight and Corner Configurations

Three Distinct Retractable Screen Options

STANDARD JAMB DEPTHS

Dependent on number of panels, 3 panel stacking is 11-1/4”

Additional jamb extension sizes available.

SIZING

Max Standard: 8’ panel width (10’ height), 12’ panel height (6’ width), 6 panels (straight-stacking), 12 panels (bi-parting)

Custom sizes that do not fit into our standard size matrix are also available.

PERFORMANCE BRIEF

Performance Grade up to **PG70**

Common U-Values - **.36 (Dual) & .27 (Triple)**

HVHZ Certified

**U-Values just representative of common performance, more aggressive performance can be achieved.*

HIGHLIGHTED FEATURES & BENEFITS

LIFT & SLIDE HARDWARE

The Lift & Slide system temporarily disengages panels from the weatherstrip, allowing them to roll effortlessly regardless of size. When lowered, the panels fully engage to create a robust weather seal and increased security.

MASSIVE PANELS

Panels are available up to 7 feet wide or 12 feet high for maximum openings, with larger sizes available upon request.

OPTIONAL, FLUSH TRACK

A flush track allows flooring to be installed between the tracks, creating a seamless transition from interior to exterior. Drainage ports provide discrete water management.

STAGGERED OR STRAIGHT HEAD/SILL OPTIONS

Head and sill tracks can be staggered to adapt the system to the building conditions. This option also allows unequal bi-parting and corner bi-parting systems to integrate without requiring additional tracks.

OPTIONAL POCKET, CORNER, AND RADIUS CONFIGURATIONS

Lift & Slide systems can be adapted to unique building conditions with pocket, corner, and radius configurations. Pocketing allows panels to slide completely out of view for a large, uninterrupted opening, and radius options are available upon request.

OPTIONAL, SUITE OF RETRACTABLE SCREEN OPTIONS

Spring-loaded retractable screens provide bug-free ventilation when the door is open. Sunshade options are also available and can be combined with bug screens for full environmental control.

Visit Loewen.com or talk to your local dealer for a comprehensive education on what makes our LiftSlide doors the obvious choice in today's architectural market.

FEATURED HARDWARE

Marcos

Flush handle

Available finishes include Satin Nickel, Oil Rubbed Bronze, Matte Black, and more.

LOEWEN FUNDAMENTALS

Our highly customizable product offering is engineered for uncommon strength and durability.

1. Extruded aluminum cladding is intricately detailed, withstanding serious impact without sustaining damage.
2. Coastal Douglas Fir for strength and rigidity.
3. Aluminum core for strength and stability
4. Laminated wood components for enhanced structural stability and a tight weather seal.
5. No metal-to-glass contact improves energy efficiency.
6. Square, putty, and ogee glazing stops all available as standard profiles.
7. 1/2" airspace is the optimum performance-spec when using an Argon Gas fill.
8. Sash edge provides a finished look and integrates beautifully with Simulated Divided Lite (SDL) bars.

LiftSlide panel shown is dual glazed with a putty interior glazing stop. Exterior is Tuscany Brown aluminum cladding, interior is clear coat Coastal Douglas Fir.
